Vsware

Scoil Dara is now entering our fourth academic year using Vsware as our information management system. This means that your child's attendance, behaviour and timetable records are available for you to review on this platform. A text message will be sent to all parents of new students later today with your unique username and how to log in.

Access to Vsware can be gained through the school website, The Vsware App is available for download on Android and IOS or access directly at www.scoildara.vsware.ie

Vsware is a very interactive application and will provide valuable information regarding your child's progress. We ask Parents/Guardians to regularly log into Vsware to monitor behaviour and attendance records. Students will benefit from this closer tie between Scoil Dara and Parents/Guardians and therefore benefitting the learning and progress of all our students.

Helpful information on how to use Vsware can be found at www.vsware.ie under the resources tab.

Presently Vsware can be used for Parents/Guardians to view timetables, attendance, behaviour, term reports as well as to submit absences including late arrival to school or the necessity to leave early.

Please note that absences note can **only** be submitted through Vsware and cannot be accepted either on paper or written in the student journal.

Student photos have been added to their learner profiles on Vsware.

If you are experiencing any issues with logging into Vsware or you require your username please email ronanmccabe@scoildara.ie

How to Create/Setup an Account on Vsware

Once the school has sent you a text message containing your Vsware username you can proceed in creating/setting up your parental account.
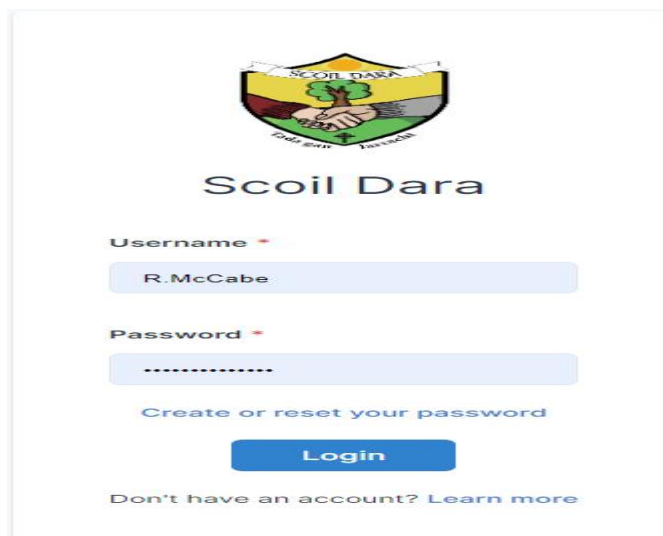

Stage 1

You can access Vsware through our website www.scoildara.ie and selecting the Vsware tab at the top of the page.

Alternatively you can access our Vsware at www.scoildara.vsware.ie

Stage 2

You will then see the landing page as below and you will need to click on 'create or reset your password'

Stage 3

You will then be asked for your username which is contained in the text message you received from the school and the last 4 digits of your mobile phone number. Once these details are entered Vsware will send you an 8 digit code which once entered will allow you to create your own password.

Stage 4

You should now have access to Vsware where you will be able to view your son/daughters attendance/behaviour/term reports.
